Name: _____ Primary 5-a-day Gold

12th March

$$\frac{\square}{5} = \frac{12}{15}$$

$$11^2$$

Round 4.361 to one decimal place

A packet of rabbit food contains 2.4 kilograms of rabbit food.

Roisin feeds her rabbit 80 grams of food each day.

How many days does the packet of rabbit food last?

50 people go on a coach trip to Blackpool. It costs £9 including a map.

Some people don't want a map and they pay only £8.

The 50 people pay a total of £410

How many people don't want a map?
