Here are some planned school trips

| | Karting | Museum | Theme Park |
|--------------------|---------|--------|------------|
| Number of students | 140 | 221 | 342 |
| Number of teachers | 8 | 12 | 19 |

For every 18 students there must be at least 1 teacher.

Do all the trips have enough teachers?

$$\text{Karting } 140 \div 8 = 17.5$$

$$\text{Museum } 221 \div 12 = 18.4\dots$$

$$\text{Theme park } 342 \div 19 = 18$$

Not enough for the
museum trip
