

20th August

$$-40 - 30$$

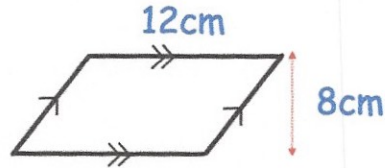

$$\boxed{-70}$$

$$0.9 \times 3,000$$

$$\boxed{2700}$$

Find the area of the parallelogram

$$12 \times 8 = \underline{96\text{cm}^2}$$

Raspberries cost £13.30 per kg
Mangos cost £6.20 per kg
4 pineapples cost £5

Work out the cost of 10kg of raspberries,
7kg of mangos and 2 pineapples.

$$\pounds 178.90$$

$$\begin{array}{r} 13.30 \times 10 = 133 \\ 6.20 \times 7 = 43.40 \\ 5 \div 2 = 2.50 \\ \hline 178.90 \end{array}$$

Molly thinks of a number.

She adds half of the number to
a third of the number.

Her answer is 100.

What was the number Molly first thought
of?

$$\begin{array}{l} \frac{1}{2} + \frac{1}{3} = \frac{5}{6} \\ 100 \text{ is } \frac{5}{6} \\ \therefore \frac{1}{6} \text{ is } 20 \\ \therefore \text{number was } \underline{120} \end{array}$$
