

Name: Anouk

Primary 5-a-day

Bronze

21st August

$$\begin{array}{r} 781 \\ - 39 \\ \hline 42 \end{array}$$

42

$300 - 120$

180

Mollie has 22p
Erin has 40p

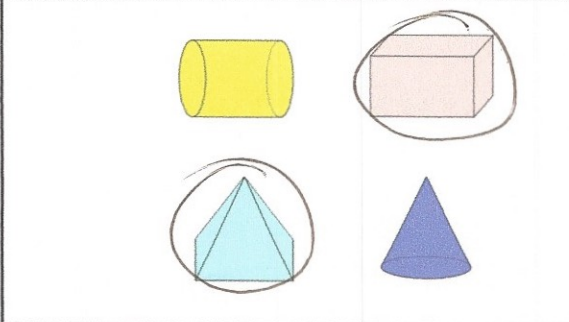

How much money should Erin give Mollie so that they have the **same amount of money**?

9p

$40 - 22 = 18$
 $18 \div 2 = 9$

Two shapes have **more than 6 edges**

Circle them.

Chloe is late arriving at school.
She is meant to arrive at 8:55am

The clock shows the time she arrived.

How many minutes late is she?

29 mins
