

Name: \_\_\_\_\_

Primary 5-a-day

Gold

6th January

$9^2$

$$\frac{3}{4} - \frac{5}{8}$$

$$\frac{6}{8} - \frac{5}{8} = \frac{1}{8}$$

81

 $\frac{1}{8}$ 

Write down all the factors of 24

1, 2, 3, 4, 6, 8, 12, 24

Large pies cost £3.25 each  
Small pies cost £1.80 each

Five children together buy two large pies  
and one small pie.

They share the cost equally.

How much does each child pay?

$$\begin{array}{r} 3.25 \\ 3.25 \\ + 1.80 \\ \hline 8.30 \\ 1 \quad 1 \end{array}$$

$$\begin{array}{r} 1.66 \\ 5 \overline{) 8.30} \\ \underline{5} \phantom{0} \\ 3 \phantom{0} \\ \underline{3} \phantom{0} \\ 0 \phantom{0} \\ \underline{0} \\ 0 \end{array}$$

£1.66

Write the two missing digits to make this  
**long multiplication** correct

$$\begin{array}{r} 5 \boxed{3} \\ \times \boxed{2} 7 \\ \hline 371 \\ 1060 \\ \hline 1431 \end{array}$$
