

4th May

$$12.8 \times 100$$

1280

$$3 \times \square = 9,000 - 252$$

$$9000 - 252 = 8748$$

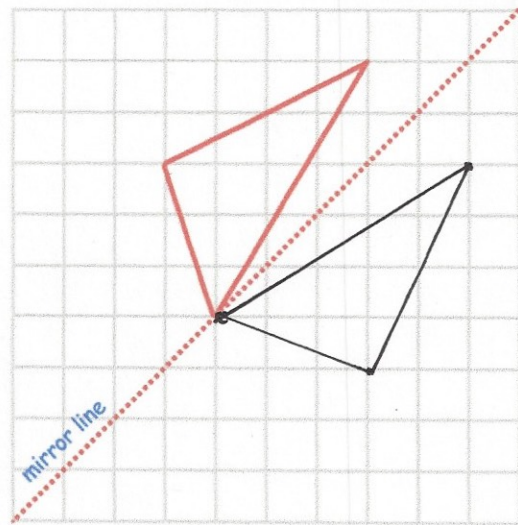

$$\begin{array}{r} 2916 \\ 3 \overline{) 8748} \end{array}$$

2916

What type of triangle is shown?

Scalene

Reflect the triangle in the mirror line

Nicola takes part in a quiz.

Each correct answer is worth 150 points.
Each incorrect answer is worth -60 points.

Nicola answers 2 questions correctly and
8 questions incorrectly.

How many points does Nicola finish with?

$$2 \times 150 = 300$$

$$-60 \times 8 = -480$$

$$\underline{\underline{-180}}$$
