

10th July

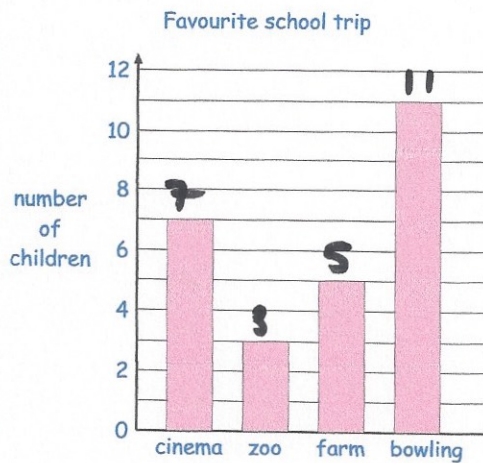

$$56 - 9$$

47

$$145 - 50$$

95

The children in a class vote for their favourite school trip. Each child voted once.

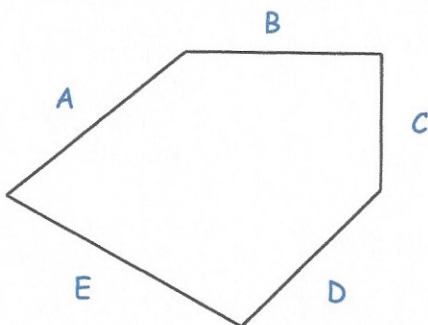

How many **more** children voted for **bowling** than for the **zoo**?

$$11 - 3 = 8$$

How many children voted **altogether**?

$$7 + 3 + 5 + 11 = \underline{26}$$

Two sides of this shape are the same length.

Write their letters.

B and D
