

11th July

$$\frac{17}{20} = \boxed{85\%}$$

Grid area for the first problem.

$$\boxed{85\%}$$

$$608 \times 214$$

$$\begin{array}{r} 608 \\ \times 214 \\ \hline 2432 \\ 6080 \\ 121600 \\ \hline 130112 \end{array}$$

$$\boxed{130,112}$$

The area of this triangle is 30cm^2

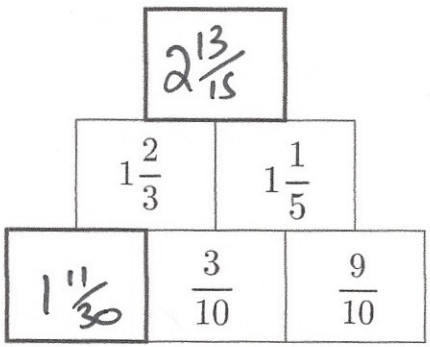

Find the length of the base of the triangle, y .

$$y = \underline{\underline{10\text{cm}}}$$

$$\frac{1}{2} \times 6 \times y = 30 \therefore 3y = 30$$

In this pyramid, the number in each box is the sum of the two numbers below it.

Find the two missing numbers

$$1\frac{2}{3} - \frac{3}{10}$$

$$= \frac{5}{3} - \frac{3}{10} = \frac{50-9}{30} = \frac{41}{30} = 1\frac{11}{30}$$

$$1\frac{2}{3} + 1\frac{1}{5}$$

$$= \frac{5}{3} + \frac{6}{5} = \frac{25+18}{15} = \frac{43}{15}$$

$$= 2\frac{13}{15}$$
