3rd July

$$\frac{2}{3} = 0.\dot{6}$$

$$\frac{2}{3}$$

$$1 + 3^3$$

$$3^3 = 27$$

$$28$$

This diagram shows a straight line and two overlapping squares.

Find the size of angle a

$$360 - (90 + 90 + 70) = 110^\circ$$

Find the size of angle b

$$b = 40^\circ$$

Seamus Heaney was born in the year 1939.

Write 1939 in Roman numerals

MCMXXXIX
