

12th March

$$\frac{4}{5} = \frac{12}{15}$$

4

$$11^2$$

121

Round 4.361 to one decimal place

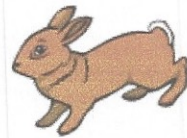

4.4

A packet of rabbit food contains 2.4 kilograms of rabbit food.

Roisin feeds her rabbit 80 grams of food each day.

How many days does the packet of rabbit food last?

$$2400 \div 80 = \underline{\underline{30}}$$

50 people go on a coach trip to Blackpool. It costs £9 including a map.

Some people don't want a map and they pay only £8.

The 50 people pay a total of £410

How many people don't want a map?

$$50 \times 8 = \cancel{400}$$

\therefore 10 people buy a map
so 40 don't
