

29th May

$$1\frac{5}{8} - \frac{3}{4}$$

$$\frac{13}{8} - \frac{6}{8} = \frac{7}{8}$$

$$\frac{7}{8}$$

$$\frac{5}{8} \div 3$$

$$\frac{5}{8} \times \frac{1}{3} = \frac{5}{24}$$

Two numbers have a sum of 2
The same numbers have difference of 4

What are the two numbers?

-1, 3

Here are two identical triangles

What are the coordinates of point A?

$(-7, 1)$

What are the coordinates of point B?

$(-7, 3)$
