Create the smallest possible two digit **even** number

| 2 | 3 | 4 | 5 |

Look at the four digit cards above
You can only use each digit once.

| Jasmin has 50p |
| Erin has 90p |

How much money should Erin give Jasmin so that they have the **same amount of money**?

| Megan is buying carrots. |
| 1 kilogram of carrots costs 50p |

How much should Megan pay for the carrots?
