Name: _____ Primary 5-a-day Bronze

10th September

30×30

$44 + \square = 2 \times 50$

Georgina and Emily share these coins so that Georgina has **twice as much money** as Emily

Georgina chooses her coins first.
Emily takes the rest of the coins.

Which coins could Georgina choose?

Which coins would be left for Emily?

Shown is a thermometer

The temperature is 3°C

Show this temperature on the thermometer with an arrow
