Name: _____ Primary 5-a-day Platinum

30th May

$319 \div 11$

$1.2 \div 10{,}000$

Anthony has 30 shapes
26 of the shapes are green.
75% of red shapes are squares.
There are twice as many squares than circles.

	Red	Green
Square		
Circle		

There are 37 houses in a street.

Jessica says "there are three as many houses to the **left** of our house than to the **right** of our house."

How many houses are to the **left** of Jessica's house?

Find the value of a

$$2a - 17 = 31$$
