</tr>
<tr>
<td>( 1,118 \div 43 )</td>
<td></td>
</tr>
</tbody>
</table>

There are 900 fans at the rugby match between Maidenhead and Dover.

40% of the fans support Dover.

How many fans support Dover?

Shown is a net of a cube. Write 6 different numbers on the faces so that the numbers on the opposite faces of the cube have a product of 360.

In a season, Carlisle United

Win 35% of their matches

Draw \( \frac{1}{3} \) of their matches

What fraction of their matches did Carlisle United lose?
