Freddie begins watching a movie at the time shown on the clock. The movie lasts 135 minutes. What time does the movie end?

Charlotte has these digit cards

She makes a 3-digit number and **divides** it by a 1-digit number. Her answer is a whole number **greater than 100**.

What could Charlotte's division be?

Jamie has £65  
 Anne has £12 less than Jamie  
 Tom has three times as much money as Anne

How much money do they all have in total?
