Eddy had some money.

He spent £2.75 on a coffee. He spent £1.00 on a packet of crisps.

Eddy has two-thirds of his money left.

How much money did Eddy start with?

 $6,422 \div 19 = 338$

Explain how you can use this fact to find the answer to 18×338

Work out the area of the trapezium
