

26th December

$$7 \times 12$$

$$\frac{4}{5} - \frac{1}{5}$$

A bookshelf in a classroom is 116cm long.

A teacher has 30 maths books, each 4cm wide.

What is the maximum number of textbooks that will fit on the shelf?

A square has a perimeter of 44cm

Find the length of one side.

Simon buys 3 drinks.

He pays with a £5 note.

This is his change.

Work out the cost of 1 drink.
