17th June

$\begin{array}{r} 1585 \\ + 433 \\ \hline 2018 \end{array}$
<div style="border: 1px solid black; padding: 5px; display: inline-block;">2018</div>

$\frac{1}{7}$ of 35

<div style="border: 1px solid black; padding: 5px; display: inline-block;">5</div>
--

Round 5,267 to the nearest 100

5300

A stack of 10 identical boxes is 150cm tall

Jake adds 3 more boxes.

How tall is the stack now?

195cm

each box 15cm

$3 \times 15 = 45\text{cm}$

$150 + 45 = 195$

Write down the value of the digit 3 in the answer to

$23 \times 100 = 2300$

3 hundreds (300)
