

28th June

$12 \times 7$

$485 \div 5$

Martha says.

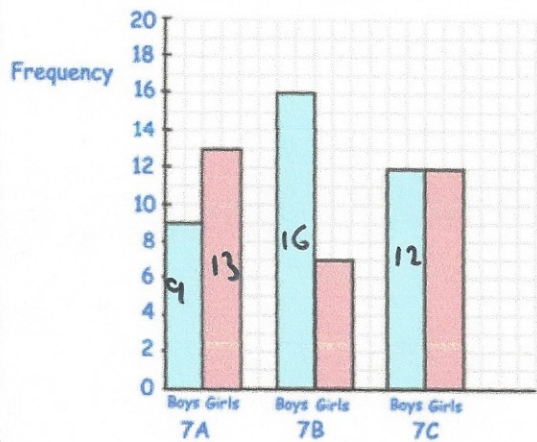

"All numbers that end in a 6 are multiples of 6."

Is Martha correct?

Explain your answer

No, 26 is not a multiple of 6 (for example)

Number of boys and girls in 7A, 7B and 7C

How many boys are there in Year 7?

37

How many more girls than boys are there in 7A?

4
