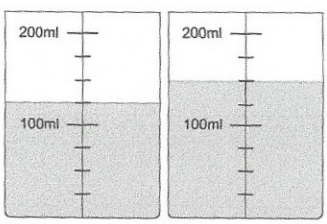
Rosie has 800 millilitres of milk in a bottle

She pours some milk into two measuring jugs.



How much milk has Rosie poured into the measuring jugs in total?

125 + 150 = 275 mL

How much milk does Rosie has left in the bottle?

800 - 275
= 525 mL

Write the three missing digits to make the **addition** correct

$$\begin{array}{r} 6\,4\,5\,1\,2 \\ +\quad 8\,2\,7\,9 \\ \hline 7\,2\,7\,9\,1 \end{array}$$
