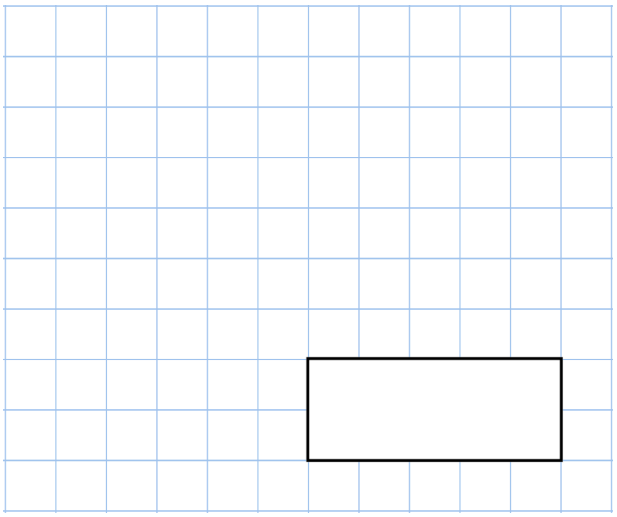
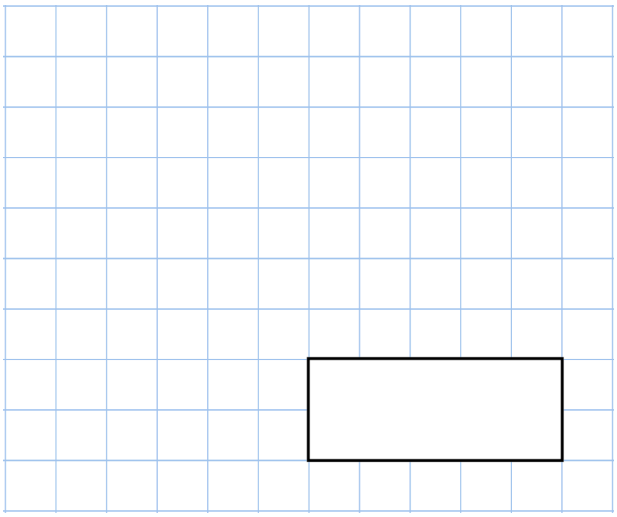
Name: _____ Primary 5-a-day Bronze

24th November

$\frac{1}{2}$ of 34



45×4



Oldest	Age
Lobster	153 years
Koi	226 years
Cat	38 years

Write the animals in order of the oldest ages. Start with the oldest.

Work out the total number of years lived by the oldest lobster and oldest cat.

The first two multiples of 6 are shown.

Write down the next 3 multiples of 6.

6	12
