

24th June

30% of 90

$$\begin{aligned} 10\% &= 9 \\ 30\% &= 9 \times 3 = 27 \end{aligned}$$

27

$$\frac{7}{10} - \frac{1}{2}$$

$$\frac{7}{10} - \frac{5}{10} = \frac{2}{10}$$

 $\frac{1}{5}$

Write three factors of 30 that are **not** factors of 15

2630

A box of staples contains 1,000 staples.

A secretary wants to order three million staples.

How many boxes of staples should they order?

3000

$$\begin{aligned} 3,000,000 &\div 1,000 \\ &= 3,000 \end{aligned}$$

Find the mean of these numbers

17 18 15 22 33

21

$$\text{total} = 105$$

$$\frac{105}{5} = 21$$
