

Name: Answer

Primary 5-a-day

Gold

30th June

5^3

$\frac{13}{30} + \frac{1}{2}$

$\frac{13}{30} + \frac{15}{30} = \frac{28}{30}$

125

$\frac{14}{15}$

Find the next two numbers in this sequence.

99,810 99,870 99,930
 ↘ ↘
 +60 +60

99,990, 100,050

A parallelogram is translated from position A to position B.

Complete the sentence

The parallelogram has moved

6

squares to the left

and

4

squares up
