

16th October

$$\begin{array}{r} 264 \\ 9 \overline{) 2376} \end{array}$$

264

20% of 30

6

Change 780 metres into kilometres

0.78 km

Change 0.02 kilograms to grams

20 grams

Circle all the prime numbers

(5) (7) 15 (17) 25 27

A 2p coin has a mass of 7 grams.

Find the total mass of £8 of 2p coins.

So 2p coins make £1

400 2p coins make £8

$$400 \times 7 = 2800 \text{ g}$$

or

$$2.8 \text{ kg}$$
