

4th December

$$12.6 \div 30$$

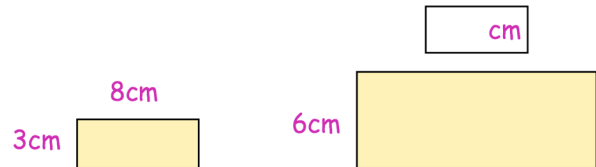

$$2\frac{2}{3} - \frac{7}{20}$$

Here are two similar rectangles

Work out the missing length

The product of Sidney's age, George's age and Eddie's age is 1,683

Sidney is 11 years old.
George is 17 years old.

How old is Eddie?

The first Star Wars movie was released in 1977.

Write the year 1977 in Roman numerals
