Circle two numbers that multiply together to equal **10 million**

200 500 1,000 2,000

20,000 100,000 200,000

Katie thinks of a number.

She **multiplies the number by 4** and then **subtracts 25** from the result.

Her answer equals the number she started with.

What was the number Katie started with?

Write the number 1966 in Roman numerals.
