

23rd April

$$54 - 26$$

$$\frac{1}{3} \text{ of } 90$$

There are 46 children in an assembly hall.

Half of the children **leave** the assembly hall and 56 more children **enter** the assembly hall.

How many children are in the assembly hall **now**?

Arrange these amounts in order, starting with the **smallest** amount

£0.85	£10	
£6.20	91p	£1.77

smallest					largest

How many vertices does a cube have?
