**14th March**

$\boxed{} + 10 = 60 - 35$

$76 - 36$

There are **87** cars in a car park.

19 more cars go into the car park.

Then **45** cars go out.

How many cars are in the car park **now**?

Find the missing number

$5 \longrightarrow \boxed{+ 8} \longrightarrow \boxed{\times 2} \longrightarrow \bigcirc$

Alexandra has a box of toffees.

She has 8 friends.
She gives them 5 toffees each.
There are 7 toffees left.

How many toffees were in the box at the start?

Toffees
