

6th March

$$5 \times 4 \times 6$$

$$3000 - 20$$

The tally chart shows how many people live in a street.

How many children live in the street?

Group	Tally
Children	
Adults	
Pensioners	

Georgina and Emily share these coins so that they have the **same** amount of money.

Georgina chooses her coins first.
Emily takes the rest of the coins.

Which coins could Georgina choose?

Which coins would be left for Emily?
