

24th April

$$26 \times 17 = 3,000 - \boxed{}$$

A large grid for working out the calculation. At the bottom center of the grid, there is a rectangular box for the final answer.

Simplify $\frac{300}{1000}$

A large grid for working out the simplification. At the bottom center of the grid, there is a rectangular box for the final answer.

There are 1,200 fans at a rugby match between Malone and Ballyclare.

75% of the fans support Ballyclare.

How many fans support Malone?

Write down three factors of 60 that are also factors of 45

Two 2-digit numbers multiply to make 198

Write the two missing numbers

$$\boxed{}\boxed{} \times \boxed{}\boxed{} = 198$$
