

4th December

$$7 \overline{) 9667}$$

Simplify $\frac{35}{75}$

This graph shows the number of puffins living on an island

How many puffins lived on the island in 2008?

In what year was the number of puffins the same as 2014?

The factors of 9 have a sum of 13.

Find the 6 different numbers that factors have a sum that is less than 10.
