Name: _____ 5-a-day Gold

**16th February**

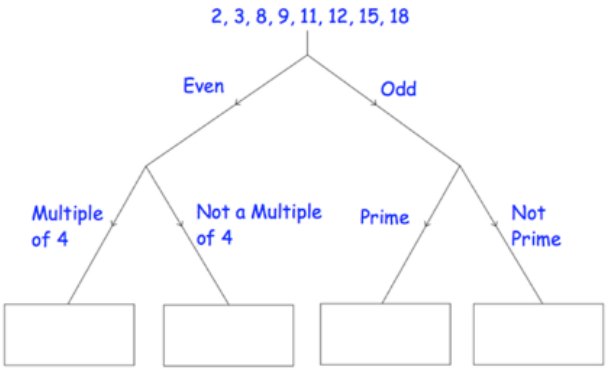
$25 \times 7 \times 8$

$1\frac{3}{4} = \frac{\square}{4}$

Rebecca has two dogs, Lucky and Pepe.
Lucky weighs 7.2 kilograms.
Pepe is 900 grams lighter than Lucky.

Work out how much both dogs weigh in total.

Sort all the numbers into the correct boxes



James says all prime numbers are odd.
Explain why James is wrong
