Name: _____ 5-a-day Gold

22nd February

$0.4 \div 10$

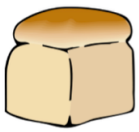
Simplify $\frac{10}{20}$

Round 324,651 to the nearest 10,000

Karl is baking a loaf of bread and needs 0.8 kg of flour.

He has 72 grams of flour.

How much more flour does Karl need? Give your answer in grams.



Work out the **difference** between the **sum** of 16 and 21 and the **product** of 16 and 21
