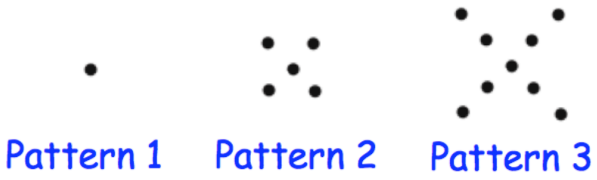
Name: _____ 5-a-day Gold

8th February

25% of 320

$\frac{7}{8}$ of $1{,}080$

Here is a pattern of dots



Draw Pattern 4

How many dots will there be in Pattern 6?

Explain why there will **not** be a pattern that uses 120 dots.

Find three different numbers that are:

- a prime number

- two less than a square number
