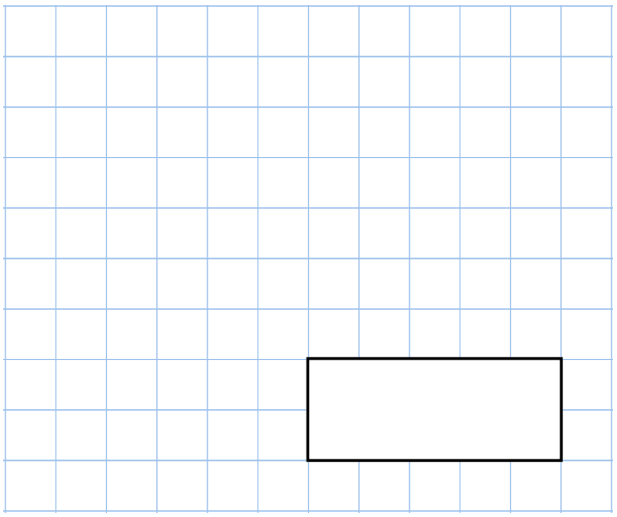
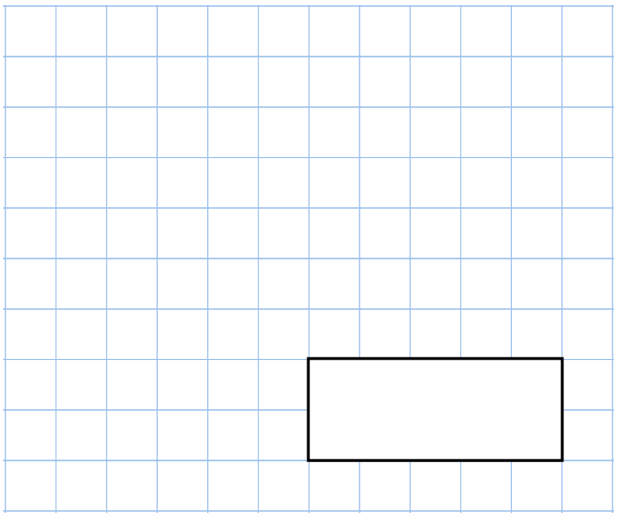
Name: _____ 5-a-day Gold

**15th July**

$1.7 \div 100$



$8^3$



Brendan earns £14 an hour.

He works 16 hours in one week.

He gives $\frac{1}{10}$ of his total pay to his mum

How much money does he give to his mum?

Write down all the factors of 40

In a bag there are green, white and blue counters.

$\frac{1}{3}$ of the counters are green

$\frac{2}{9}$ of the counters are white

What fraction of the counters are blue?
