Name: _____ 5-a-day Gold

4th July

$\frac{2}{\square} = \frac{26}{65}$

$2387 \div 7$

Find the mean of this set of numbers

6, 6, 8, 10, 15

Hannah says

"there are more prime numbers between 10 and 20 than between 1 and 10.

Is Hannah right?

A cake weighs 800g.
40% of the cake is sugar.

Work out how many grams of sugar are in the cake.
