Matt asked 28 people to see how they travelled to work.

Matt says, **"exactly 10% of the people in the survey said they travelled by train."**

Explain why Matt is **wrong**

Write these numbers in order, starting with the smallest.

9.21 9.091 9.119 9.2 9.29

Three whole numbers have a mean of 30.

All the numbers are different.

Write down three possible numbers
