

25th June

$$-25 + 33$$

$$1.4 - 0.522$$

A toad croaks every 10 seconds.  
A frog croaks every 18 seconds.  
They both croak at the same time.

After how many seconds will they next  
both croak at the same time?

Here is a triangle on a grid.

The triangle is translated so that point **A**  
moves to point **B**.

Draw the triangle in its new position.

Find the area of each triangle.
