$$30 + 7^2 \times 2$$

Grid for calculation: $30 + 7^2 \times 2$

$$9,614 \div 23$$

Grid for calculation: $9,614 \div 23$

Shown is a regular pentagon

Find the size of angle x

Four bananas have a **mean** mass of 115g

The heaviest banana is removed.

The **mean** mass of the remaining three bananas is 107g.

What is the mass of the heaviest banana?

Which is larger 30% of 8 or 8% of 30?
