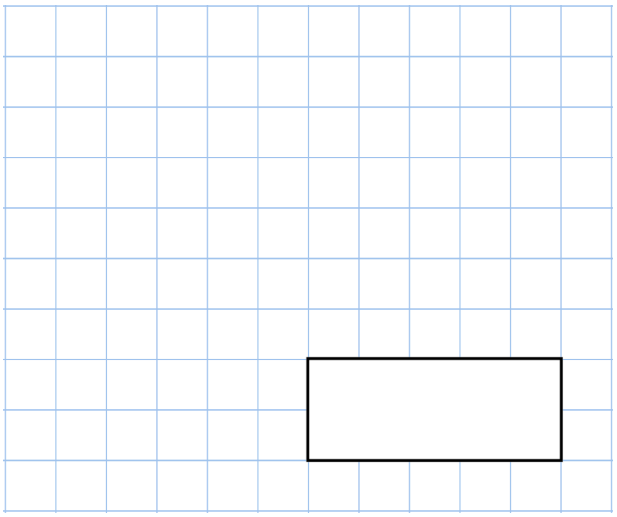
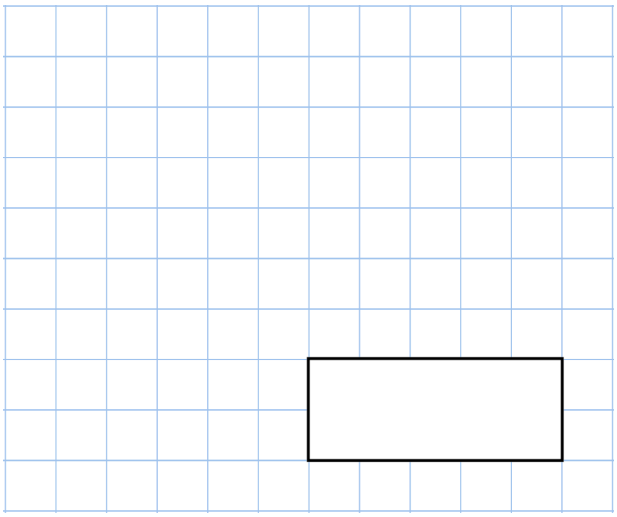
Name: _____ 5-a-day Platinum

17th December

$0.048 \div 6$



$90 \times 20 - 15 \times 40$



Anthony has 60 shapes
52 of the shapes are green.
75% of red shapes are squares.
There are twice as many squares than circles.

	Red	Green
Square		
Circle		

$7{,}668 \div 27 = 284$

Explain how you can use this fact to find the answer to 27×286

Work out the volume of the cuboid
