

**24th December**

$3.6 \div 90$

$2\frac{1}{3} \times 24$

Find the value of  $w$  in this equation

$5w - 6 = 33$

Circle the two decimals that are **closest in value** to each other.

0.8 0.08 0.88 0.1 0.01

Here is a trapezium with a height of 7cm.

The parallel sides are 6.5cm and 11.5cm long.

Find the area of the trapezium
