

27th February

$$- 12 - 23$$

$$1,593,202 - 730,095$$

Ethan uses nine cubes to make a cuboid.

He then removes two cubes, leaving the other cubes where they are.

Draw what the new shape could be

$$12,432 \div 168 = 74$$

Explain how this fact can be used to answer 73×168
