

16th January

$$17^2 = 300 - \boxed{}$$

$$825 - 912$$

Using the information that
 $87 \times 456 = 39672$
 write down the value of 870×4.56

Shown is a regular pentagon

Find the size of angle x

There are 80 teachers in a school.
 The headteacher says that exactly 43% of the teachers drive to work.
 Explain why the headteacher is wrong.
