

18th June

	9	0	2	0	0	1
+	3	7	3	1	0	3

$$\frac{4}{9} \div 2$$

There are 600 members of a running club.
45% of these members are male.

Work out 45% of 600

Solve this equation to find the value of y

$$40 - 2y = 22$$

Draw a cuboid with half the volume of the cuboid shown.
