$$\frac{8}{9} \div 4$$

Grid area for working out $\frac{8}{9} \div 4$. Includes a rectangular box at the bottom for the final answer.

$$802 \times 223$$

Grid area for working out 802×223 . Includes a rectangular box at the bottom for the final answer.

Find three different prime numbers that have a product of 165

Grid area for solving the prime number problem.

Joey thinks the answer to $16 + 4 \times 2$ is 40.
Tim thinks the answer to $16 + 4 \times 2$ is 24.
Who is correct?
Explain your answer.

Grid area for explaining the order of operations problem.

Here are three equations

$$x + y + z = 28$$
$$x + y = 19$$
$$y + z = 13$$

What are the values of x, y and z?

$x = \square$ $y = \square$ $z = \square$
