15th May

$$1\frac{1}{8} - \frac{1}{3}$$
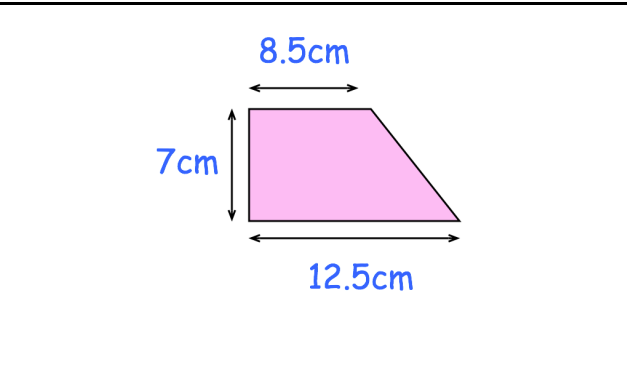

$$29 \times 3\frac{1}{2}$$

Find the value of w in this equation

$$6w - 3 = 33$$

Here is a trapezium with a height of 7cm.

The parallel sides are 8.5cm and 12.5cm long.

Find the area of the trapezium

8.5cm

7cm

12.5cm

George makes a sequence of numbers. He chooses a starting number and then adds equal amounts each time.

The fourth number in his sequence is −7
The seventh number in his sequence is 32

What is the second number in the sequence?

| | | | -7 | | | 32 |
