Name: _____ 5-a-day Platinum

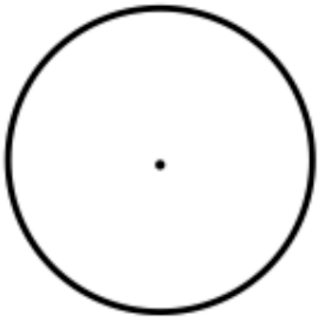
5th May

$\frac{7}{8} =$ ____ %

$80 - 72 \div 8$

____ %

Draw the diameter



What is the value of w in this equation?

$$5w - 12 = w + 26$$

In a sale, Harriett bought a t-shirt with a 10% discount.
The next week, Jenny bought the same t-shirt with a 50% discount.

Harriett paid £16 more for the t-shirt.

What was the original price?
