

23rd November

$$0.85 \times 20$$

$$\frac{23}{30} - \frac{1}{4}$$

Here are two similar rectangles.
Work out the missing length.

In a season, Torquay United
Win 55% of their matches
Draw $\frac{1}{3}$ of their matches
What fraction of their matches did Torquay United lose?

Shown is an equilateral triangle and a regular hexagon.
Find y .
