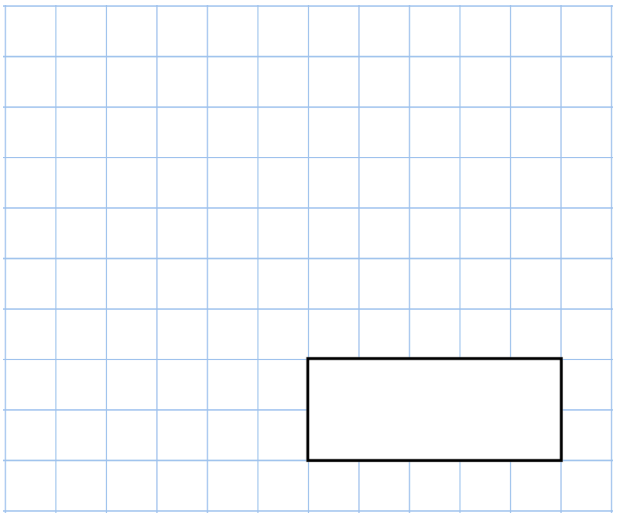
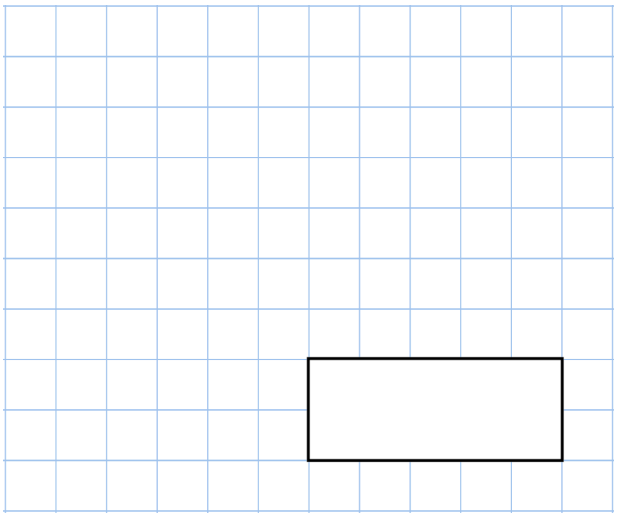
Name: _____ 5-a-day Platinum

16th October

9% of $7{,}000$



$2\frac{1}{8} - \frac{1}{4}$



$19 \times 345 = 6{,}555$

Use this multiplication to complete these calculations

190×345

19×34.5

20×345

Put brackets into the calculation to make it true

$6 \times 7 + 3 - 8 = 52$
